2 Contact Resident Services
Brigette Johnson
(202) 394-4748

Earth Day is an *annual event first held in 1970* and used to highlight and support environmental issues and protection. Pepero is committed to the objectives of Earth Day and has a responsibility to address its own greenhouse gas footprint while working *to provide customers with safe, reliable, affordable and sustainable energy* while addressing the climate crisis and creating lasting resilience for all customers.

Pepero's environmental goals include:

COMPANY

Reducing the greenhouse gas emissions from our operations and assets and building resilience for the future

CUSTOMERS

Empowering our customers to *manage their energy use* and emissions

COMMUNITY

Modernizing the grid and supporting the District's climate change and *clean energy goals*

CELEBRATES EARTH DAY

In conjunction with Earth Day 2022, Pepco will host an Earth Day celebration on Saturday, April 23, 2022 from 9:00 a.m. to 2:00 p.m. for the residents surrounding the Mount Vernon Substation site. The Mount Vernon Substation is being built to **strengthen the energy grid to safely serve the community** now and in the future.

This year's Earth Day celebration will be used to:

- ✔ Bring residents surrounding the Mount Vernon Substation together to support Earth Day efforts
- ✔ Share energy efficiency tips and tools with residents
- ✔ Cleanup the community surrounding the Mount Vernon Substation
- ✔ Provide updates on the Mount Vernon Substation construction
- ✔ Share information and exhibits for other Pepco programs

Refreshments Provided!

Do you need to get rid of old electronics?

Stop by the FRESHFARM Mount Vernon Triangle Market located at 499 I Street NW on Saturday, April 23, 2022 from 9:00 a.m. – 1:00 p.m. Pepco, in partnership with the Mount Vernon CID, will be collecting old electronics and properly disposing of them for recycling. Accepted items include computers, tablets, monitors, mobile phones, DVD players, VCRs, printers, mice, keyboards, gaming consoles, small-scale servers, e-readers, and computer speakers.
